Automotive / Assembly / Machine Operation
 Oily Material Handling / Maintenance /
 Logistics & Warehousing

EXCELLENT OIL GRIP PERFORMANCE

DESCRIPTION

ActivGrip™ Advance is specifically designed to provide maximum "all-around" performance on slippery-grip applications in non-hazardous chemical environments. The 13-gauge seamless wooly nylon liner and "open back style" provide an excellent coolness and flexibility, which minimize hand fatigue, thus increasing productivity. A soft yet durable nitrile coating technology "MicroFinish®" adheres to virtually any dry or slippery surface.

FEATURES

Oil Resistant

Unlike similar gloves available in the market, ActivGrip™ Advance offers more promising protection against oil penetration. Double coated surface keeps hands clean for oily material handling.

Confidence

With MicroFinish® technology, ActivGrip™ advance promises its performance under dry, wet, and oily conditions.

Comfort

A 13-gauge seamless liner and ergonomic design assure a maximum comfort and minimum hand fatigue.
